SUMMARY :

Full-stack developer with strong expertise in both frontend and backend development. Experienced in leading teams and delivering high-quality, scalable projects.

TECHNICAL SKILLS :

- **Backend** : Node.js, Express.js, Php, Java, C++
- **Frontend** : JavaScript, Html, Css
- **DevOps** : Docker, Kubernetes
- **Database** : mySql, MongoDB, PostgresSQL

EXPERIENCE :

Industrial Training (6 Weeks) – MITU Skillologies Institute

Web Development (HTML, CSS, JavaScript, PHP) | *3rd June – 13th July 2024*

Assisted in basic company-related tasks and contributed to initial modules of live website projects, helping improve development speed and reduce the team's workload by supporting frontend and backend tasks.

PROJECTS :

1) Event Management Website Planify-The Event Hub: Frontend and Backend Development ([Project-Link](#))

Tech Stack: PHP, HTML, CSS, JavaScript, MySQL

- Developed a responsive event management platform using HTML, CSS, JavaScript, and PHP, ensuring smooth UI and backend operations.
- Implemented a MySQL database to manage users, organizers, events, payments, and booking details efficiently.
- Integrated Razorpay payment gateway, AI chatbot, ticket booking system, and an admin dashboard for complete management.

2) Library Book Issue Management System : Full Stack Development ([Project-Link](#))

Tech Stack: Advanced Java, JDBC, PostgreSQL

- Built a library management system using Advanced Java for secure login, registration, book issue, and return operations.
- Designed a PostgreSQL database to store user information, issued books, return dates, and complete user history.
- Added validation, session handling, and a clean interface for smooth book management and real-time updates.

3) Herbal Product E-Commerce Platform : MERN + Supabase Development

Tech Stack: Node.js, React.js, Supabase, Razorpay

- Built an herbal product ordering platform using React.js and Node.js with Supabase for user login, registration, product browsing, and order tracking.
- Integrated Razorpay gateway for secure online payments and smooth checkout.
- Developed an admin dashboard to manage products, view orders, and update dispatch status in real time.

PATENT :

Planify: The Event Hub is a patented event management platform (Patent No. SW-2025020734) recognized for its innovative digital workflow. Built using HTML, CSS, JavaScript, PHP, and MySQL, it streamlines event creation and organization through a secure, user-friendly system.

EDUCATION :

- B.Tech in Computer Engineering, MIT Academy of Engineering, Alandi — Expected May 2028
- Diploma in Computer Engineering (92.80%), PC Polytechnic, Pimpri Chinchwad — June 2025
- SSC (90.00%), Baburaoji Gholap Vidyalay, Pune — 2022

QUALITIES: Leadership, Project Planning, Communication, Time Management, Decision-Making

LANGUAGES: English, Hindi, Marathi
